The Career and Professional Development Center’s (CPDC) mission is to empower students to optimize their professional and life potential through career exploration, experiential learning and connections with employers and opportunities.

**CPDC SERVICES**

**Career Counseling**
Individualized service is offered to every Carnegie Mellon student. The CPDC’s college-specific and industry-based model enables students to meet with career consultants in both their chosen academic discipline and/or the industry in which they would like to work. Career consultants work with each student to provide best-in-class career and professional development coaching.

**TartanTRAK**
TartanTRAK is Carnegie Mellon’s online recruiting system where students and employers interact. Carnegie Mellon students are eligible to use TartanTRAK once they complete a user profile at cmu.edu/career/tartantrak.

**Self-Guided Career Exploration**
To assist students interested in guiding their own individual career journeys, and to better prepare students for appointments with CPDC consultants, we have created the myCareerPath program. For information visit, cmu.edu/career/my-career-path.
