The Tepper School of Business is renowned for developing graduates who demonstrate leadership alongside advanced analytics.

Tepper School undergrads stay ahead of the pace of business through a high-performance education. Building from the ground up, students gain a mastery of management fundamentals — economics, behavioral sciences and management sciences. A set of broad liberal arts and science requirements complement this foundation for an academic experience with impressive breadth and depth. Students are encouraged to explore interdisciplinary research and electives with opportunities across Carnegie Mellon University’s campus.

Students are engaged in the classroom and across campus through student organizations, research and athletics. Our students and graduates are consistently recognized by recruiters for the immediate impact made on the job.
